EASY PEESY II

- Contains ingredients that help support healthy urinary tract and bladder function. Specific probiotic strains help to combat UTIs. Herbs and nutraceuticals work to decrease pain/discomfort and inflammation in the bladder wall and smooth muscle. Supports the transportation of bad bacteria out of the bladder through the urine, while slightly shifting the urine pH, thereby making conditions for bacteria growth less favorable.

FIDO'S FLORA

- Fido's Flora is the first biologically species-specific probiotic for your dog. This revolutionary product from dogs, for dogs, is a multi-strain probiotic blend featuring powerhouse minerals fulvic and humic acid and prebiotic larch. (DOGS ONLY)

FELIX'S FLORA

- The first & only biologically species-specific probiotic backed by science for cats. This revolutionary product from cats, for cats, is a multi-strain probiotic blend featuring powerhouse minerals fulvic and humic acid and prebiotic larch. (CATS)

GUT SOOTHE (DOGS)

- Gut Soothe is a proprietary blend of anti-inflammatory herbs, nutraceuticals, and pre and probiotics that soothe and replenish the lining of the bowel, fight yeast, and combat unhealthy bacteria.

Adored Beast

GUT SOOTHE (FELINE)

- A proprietary blend of herbs, prebiotics, and probiotics that supports a healthy inflammatory response. Helps promote normal bowel function, digestive function, and pH. May help prevent and eliminate hairballs. Helps support the protective layers of the bowel and maintain proper gut flora in the digestive tract. 15 billion CFUs and 14 species of probiotics.

HEALTHY GUT

- Healthy Gut aids in the digestion of food and supports a healthy immune system. Helps rebalance and cultivate proper growing conditions for friendly digestive flora destroyed by antibiotics and toxins.

JUMP FOR JOYNTS

- Supports healthy joints, ligaments, tendons, and muscles. Jump for JOYnts can support issues such as ACL injuries, arthritis, and bone and muscle injuries.

LIVER TONIC

- Supports the health of the liver by helping regenerate healthy liver cells and boosting the organ's ability to filter toxins from the blood. It also helps support, detox, and repair liver, kidney, pancreas, and gallbladder function. Made with herbal ingredients such as dandelion root, milk thistle, and more.

LOVE BUGS

- Probiotics, or “friendly” bacteria, are the gut’s defense system against “bad” or dangerous disease-causing bacteria. Prebiotics serve as a fertilizer so the gut can grow a bountiful amount of this friendly bacteria leading to wonderful health benefits such as combating yeast, helping with seasonal allergies and IBD, and helping to prevent tooth decay! Contains 14 strain probiotic with 30 billion allergen-free CFU.

RESTORE - APPLE CIDER VINEGAR CONDITIONING RINSE

- **Relief from Itchy Skin:** Natural astringents and toners clean the skin, pores, and coat of buildup and helps to restore the natural sebum balance of your dog's skin and coat. Spray your dog from the neck down and massage it deeply into your dog's coat. Rinse with water until clear. Note that we do not recommend spraying your dog's face.
- **Relief for Yeasty Skin:** Natural, safe and effective anti-fungals combine to soothe the skin and reduce the presence of bacteria and yeast. Spray your dog from the neck down and massage it deeply into your dog's coat. Rinse with water until clear. Note that we do not recommend spraying your dog's face.
- **Relief from Fleas:** A bath in 4-Legger's Organic Dog Shampoo and followed by a rinse with our apple cider conditioner will kill the fleas and leave your dog with a silky shine.
- **No More "Frito Feet":** If your dog has itchy stinky yeasty feet (otherwise known as Frito feet) you can spray the feet with the ACV rinse 1-2x a day. There's no need to rinse when using this method which allows these beneficial ingredients to work in between applications.
- **Cleaning Your Dog's Ears:** You can also spray the apple cider vinegar on a cotton ball and then use it to clean your dog's ears although if your dog really does have an ear infection, please go visit your veterinarian.

NOSE & PAWS HEALING BALM

- Our USDA Certified Organic healing paw balm safely and quickly soothes and heals rough, irritated, itchy, chapped, crusty, cracked and dry skin.
- In just a few days you will see a noticeable difference!
- Once restored, use our balm daily as a moisturizer to maintain your dog's healthy skin!
- Unscented and hypoallergenic for your dog's sensitive snout, our healing paw balm provides year round fast and effective protection
- While many paw wax salves contain petrochemicals, olive oil, or coconut oil that can clog skin pores, ours is made with all natural organic carnauba wax to protect your dog's dry skin from environmental assaults while retaining moisture (it's a natural humectant) and allowing the pores to breathe
- Combined with powerful healing herbs (Organic Calendula and Organic St. John's Wort) and nature's best moisturizers (Organic Hemp Oil, Organic Shea Butter and Vitamin E), our healing salve safely moisturize and repair your dog's skin, hot spots and hyperkeratosis.
- You can also use our healing balm for scar reduction, hyperkeratosis, wound healing, and bug bites and any other skin irritation
- Need sunscreen for your dog's nose? Our balm has an SPF of 15!

TOE GRIPS

- **Benefits of ToeGrips® for Dogs**
- Dogs use their toenails for traction. But hard nails can't grip slippery floors.
- Toe grippers for dogs are the natural solution because they:
- Provide instant paw traction for dogs on hard-surface flooring
- Don't require gluing to your dog's nails
- Are made for indoor/outdoor use
- Can be worn all the time
- Only need to be replaced every one to three months
- If your senior dog is slipping on hard floors, you may be feeling helpless. But now, there's an easy solution to help stop your dog from slipping on floors once and for all: ToeGrips, the original dog nail grips.

5 DENTAL CARE

INTEGRATIVEPET.COM

ALL NATURAL DENTAL POWDER

- Brushing your dog's teeth is the gold standard for oral dental care!
- Most oral care chew solutions contain sodium hexametaphosphate (SHMP) - linked to kidney, liver and thyroid issues.
- Gel and spray oral care solutions rely on alcohol that dry the mouth and gums and destroy beneficial bacteria. These shortcuts just aren't safe long term. We didn't want artificial sweeteners, fluoride, alcohol, artificial flavors and colors in our dog's mouth.
- So, we went back to the basics for what works! Nothing artificial or synthetic - just good old fashioned ingredients that safely work to naturally improve your dog's oral hygiene.
- Regularly brushing your dog's teeth with sea salt, baking soda and peppermint is a safe and natural way to ensure strong teeth and gums, break down plaque buildup, and protect against bad breath.
